CALIFORNIA LEGISLATURE—2001–02 REGULAR SESSION

ASSEMBLY BILL

No. 2838

Introduced by Assembly Member Canciamilla

February 25, 2002

An act to amend Section 409 of, and to add Section 455.2 to, the Public Utilities Code, relating to public utilities, and making an appropriation therefor.

LEGISLATIVE COUNSEL'S DIGEST

AB 2838, as amended, Canciamilla. Public Utilities Commission: fees: water rates.

(1) Existing law authorizes the Public Utilities Commission to collect penalties, or bring an action for the collection of fees and penalties, from public utilities that fail to submit certain reports and fees required by the commission. Existing law requires that the penalties collected be deposited in the Public Utilities Commission Utilities Reimbursement Account in the General Fund.

This bill would instead require that these penalties be deposited in the General Fund.

(2) Existing law requires the Public Utilities Commission to establish rates for water corporations.

This bill would require the commission to issue a final decision, within a specified timeframe, on a water corporation's application, *involving a water corporation with greater than 10,000 service connection*, for a general rate increase pursuant to the commission's rate case plan for general rate increase applications. The bill would authorize the applicant to file a tariff implementing interim rates that may be increased by an amount equal to the rate of inflation as compared to existing rates if the commission decision is not effective in accordance with the specified timeframe. The bill would require the commission to establish a schedule to require every water corporation that is subject to the rate case plan for water corporations to file an application pursuant to the plan every 3 years. The bill would provide that its provisions may be waived at any time by mutual consent of the executive director of the commission and the water corporation.

The bill would appropriate \$445,000 from moneys derived from regulatory fees deposited in the Public Utilities Commission Utilities Reimbursement Account in the General Fund for costs incurred by the commission in the administration of these provisions.

Vote: majority. Appropriation: yes. Fiscal committee: yes. State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. The Legislature finds and declares all of the
- 2 following:
- 3 (a) The rate case plan for water corporations adopted by the
- 4 Public Utilities Commission in Decision No. 90-08-045 has not
- 5 been updated or revised to reflect statutes adopted since its
- 6 promulgation in 1990.
- 7 (b) It is in the public's interest to provide a certain but flexible
- 8 schedule for investigating and addressing rate changes proposed
- 9 by water corporations.
- 10 (c) Not later than December 31, 2003, the commission should
- 11 review and revise, as appropriate, the rate case plan for water
- 12 corporations adopted by Decision No. 90-08-045 to ensure its
- 13 consistency with relevant statutes and commission practice in
- 14 addressing rate applications by water corporations.

1 (d) Whenever a water corporation files an application for a rate
2 change pursuant to the rate case plan for water corporations, the
3 commission should render a decision consistent with the schedule
4 established in the plan.

5 (e) The provisions of this act should not be construed as
6 precedent for any other utility.

7 SEC. 2. Section 409 of the Public Utilities Code is amended
8 to read:

9 409. (a) Notwithstanding any other provision of law, all fees
10 and charges collected pursuant to this code by the commission
11 from each public utility subject to Section 431, with the exception
12 of any penalty collected pursuant to Section 405 or 406, shall be
13 deposited in the Public Utilities Commission ~~Utility~~ *Utilities*
14 Reimbursement Account, in addition to the fee authorized by
15 Section 431.

16 (b) A penalty collected pursuant to Section 405 or 406 shall be
17 deposited in the General Fund.

18 SEC. 3. Section 455.2 is added to the Public Utilities Code, to
19 read:

20 455.2. (a) The commission shall issue its final decision on a
21 general rate case application of a water corporation with greater
22 than 10,000 service connections in a manner that ensures that the
23 commission's decision becomes effective on the first day of the
24 first test year in the general rate increase application.

25 (b) If the commission's decision is not effective in accordance
26 with subdivision (a), the applicant may file a tariff implementing
27 interim rates that may be increased by an amount equal to the rate
28 of inflation as compared to existing rates. The interim rates shall
29 be effective on the first day of the first test year in the general rate
30 case application. These interim rates shall be subject to refund and
31 shall be adjusted upward or downward back to the interim rate
32 effective date, consistent with the final rates adopted by the
33 commission. The commission may authorize ~~lower~~ *a lesser*
34 *increase in* interim rates if the commission finds the rates to be in
35 the public interest. If the presiding officer in the case determines
36 that the commission's decision cannot become effective on the
37 first day of the first test year due to actions by the water
38 corporation, the presiding officer or commission may require a
39 different effective date for the interim rates or final rates.

1 (c) The commission shall establish a schedule to require every
2 water corporation subject to the rate case plan for water
3 corporations to file an application pursuant to the plan every three
4 years. The plan shall include a provision to allow the filing
5 requirement to be waived upon mutual agreement of the
6 commission and the water corporation.

7 (d) The requirements of subdivisions (a) and (b) may be waived
8 at any time by mutual consent of the executive director of the
9 commission and the water corporation.

10 SEC. 4. The sum of four hundred forty-five thousand dollars
11 (\$445,000) is hereby appropriated from the Public Utilities
12 Commission Utilities Reimbursement Account in the General
13 Fund for costs incurred by the Public Utilities Commission in the
14 2002–03 fiscal year in the administration of Section 455.2 of the
15 Public Utilities Code. That sum shall be allocated from those
16 moneys in the Public Utilities Commission Utilities
17 Reimbursement Account derived from the imposition of
18 regulatory fees pursuant to Section 431 of the Public Utilities
19 Code, and may not include moneys in the Public Utilities
20 Commission Utilities Reimbursement Account derived from the
21 imposition of penalties pursuant to Sections 405 and 406 of the
22 Public Utilities Code.
