Introduced by Senator Bowen
(Coauthors: Senators Burton, Dunn, ~~and Sher~~ Sher, and Speier)

February 21, 2002

An act to add Section 345.5 to the Public Utilities Code, relating to public utilities.

LEGISLATIVE COUNSEL'S DIGEST

SB 1753, as amended, Bowen. Independent System Operator: duties.

(1) Existing law provides for the establishment of an Independent System Operator, a nonprofit, public benefit corporation, to ensure efficient use and reliable operation of the electrical transmission grid.

This bill would require the Independent System Operator to conduct its operations consistent with applicable state laws and consistent with the interests of the people of the state. The bill would also require the Independent System Operator to manage the transmission grid *and related energy markets* in a manner that makes the most efficient use of available energy resources, ~~facilitates reliable electricity service at the least economic and environmental cost to the state's consumers~~ *assures the least overall economic cost to the state's consumers, is consistent with state policies intended to protect the public's health and the environment, and assures the maximum availability of electric generation resources necessary to meet the needs of the state's electricity consumers*. The bill would also require the Independent System Operator to ensure that its purposes and functions are consistent with those of a nonprofit public benefit corporation, maintain open meetings *consistent with the Bagley-Keene Open Meetings Act*, and

provide public access to corporate records *consistent with the California Public Records Act*. The bill would authorize the Independent System Operator's governing board to adopt exceptions to the requirement to maintain open meetings and provide public access to corporate records if it finds the exceptions further the purposes of the governing acts. Since under existing law a violation of the bill's requirements would be a crime, this bill would impose a state-mandated local program by changing the definition of a crime.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.
