No. 2509

Introduced by Assembly Member Nakanishi

February 20, 2004

An act to add Chapter 5.5 (commencing with Section 2780) to Part 2 of Division 1 of the Public Utilities Code, relating to public utilities.

LEGISLATIVE COUNSEL'S DIGEST

AB 2509, as introduced, Nakanishi. Electric microuilities.

Under existing law, the Public Utilities Commission generally has regulatory authority over public utilities, including authority over ratemaking, certain financial transactions, and the disposal or encumbrance of property. Existing law prohibits the commission from establishing rates or regulating the borrowing of money, the issuance of evidences of indebtedness, or the disposal or encumbrance of the property of any electrical cooperative, as defined.

This bill, except as specified, would prohibit the commission from naming an electric microuility, as defined, as respondent in a commission investigation or a rulemaking proceeding, from establishing rates, and from regulating the borrowing of money, the issuance of evidences of indebtedness, or the disposal or encumbrance of the property of any electric microuility.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.
