[Approved by Governor September 12, 2012. Filed with  
Secretary of State September 12, 2012.]

#### LEGISLATIVE COUNSEL'S DIGEST

AB 340, Furutani. Public employees' retirement.

(1) The Public Employees' Retirement Law (PERL) establishes the Public Employees' Retirement System (PERS) and the Teachers' Retirement Law establishes the State Teachers' Retirement System (STRS) for the purpose of providing pension benefits to specified public employees. Existing law also establishes the Judges' Retirement System II which provides pension benefits to elected judges and the Legislators' Retirement System which provides pension benefits to elective officers of the state other than judges and to legislative statutory officers. The County Employees Retirement Law of 1937 authorizes counties to establish retirement systems pursuant to its provisions in order to provide pension benefits to county, city, and district employees.

This bill would require a public retirement system, as defined, to modify its plan or plans to comply with this act. The bill would establish new retirement formulas that could not be exceeded by a public employer offering a defined benefit pension plan, setting the maximum benefit allowable for employees first hired on or after January 1, 2013, as a formula commonly known as 2.5% at age 67 for nonsafety members, one of 3 formulas for safety members, 2% at age 57, 2.5% at age 57, or 2.7% at age 57, and 1.25% at age 67 for new state miscellaneous or industrial members who elect to be in Tier 2. The amount of pensionable compensation upon which a defined benefit for new members, as defined, could be based would be limited to

an amount determined under a specified provision of federal law for an employee whose service is included in the federal system, which is \$110,100 for 2012, and 120% of that amount for an employee whose service is not included in the federal system. Those amounts would be adjusted annually, as specified. The bill would authorize an employer to contribute to a defined contribution plan, as specified.

The bill would prohibit a public employer from making contributions on behalf of a person who first becomes a member on or after January 1, 2013, to any qualified retirement plan based on any portion of compensation that exceeds an amount specified in federal law, which is \$250,000 for 2012. The bill would also prohibit, for the purposes of determining a retirement benefit paid to a new member of a public retirement system, the maximum salary, compensation, or payrate taken into account under the retirement plan for any year from exceeding the amount specified in that federal provision, and would prohibit a public employer from seeking an exception to that prohibition.

The bill would prohibit a public employer from offering a plan of replacement benefits for a person who is first hired on or after January 1, 2013, and any survivors or beneficiaries whose retirement benefits are limited by a specified provision of federal law.

The bill would prohibit a public employer from providing a retirement health benefit vesting schedule or other specified retirement benefits to a manager or an employee or officer who is excluded from collective bargaining that is more advantageous than that provided generally to other public employees of the same employer who are in related membership classifications.

Under existing law, state miscellaneous and industrial employees first hired on or after August 11, 2004, who qualify for membership in PERS do not make contributions to the system or receive service credit for their service and the state employer does not make contributions on their behalf during their first 24 months of employment. These members are instead required to contribute into a tax-deferred savings account, commonly known as the alternate retirement program.

This bill would end that program and instead provide that new members immediately make their contributions to the system.

(2) Existing law defines final compensation for various employment classifications in connection with the benefits provided by the retirement systems.

This bill, for the purposes of determining a retirement benefit paid to a person who first becomes a member of a public retirement system on or after January 1, 2013, would require that final compensation mean the member's highest average annual pensionable compensation earned, as defined, during a period of at least 36 consecutive months, or at least 3 school years, as specified.

(3) Existing state and local public employee retirement systems are funded by investment returns and employer and employee contributions. The California Constitution provides that the retirement board of a public pension

or retirement system has the exclusive power to provide for actuarial services in order to ensure the competency of the assets of the system. Existing law, with respect to PERS, requires the Governor to include in the annual Budget Act the contribution rates submitted by the system actuary of the liability on account of employees of the state.

This bill would require public employees who are first employed on and after January 1, 2013, and who contribute to a defined benefit plan to contribute at least  $\frac{1}{2}$  of the annual actuarially determined normal costs, and would prohibit a public employer from contributing in any fiscal year, in combination with employee contributions, less than the plan normal cost, except as specified. The bill would authorize employee contributions to be more than  $\frac{1}{2}$  of the normal costs if agreed to through collective bargaining, but would prohibit the employer from using impasse procedures to increase an employee rate. The bill would also state that equal sharing of the normal cost between the employer and employees shall be the standard and would prescribe specified increases in employee contribution rates for existing employees. By increasing the contribution to continuously appropriated funds, this bill would make an appropriation.

(4) The Teachers' Retirement Law establishes the Defined Benefit Program of STRS, which provides a defined benefit to members of the system based on final compensation, credited service, and age at retirement, subject to certain variations. The Teachers' Retirement Law also establishes the Defined Benefit Supplement Program, which provides supplemental retirement, disability, and other benefits, payable either in a lump-sum payment or an annuity, or both, to members of the State Teachers' Retirement Plan. The Teachers' Retirement Law defines creditable compensation for these purposes as remuneration that is payable in cash to all persons in the same class of employees, as specified, for performing creditable service.

This bill would revise the definition of creditable compensation for these purposes and would identify certain payments, reimbursements, and compensation that are creditable compensation to be applied to the Defined Benefit Supplement Program. The bill would prohibit an employer from offering a supplemental defined benefit plan unless it offered one before January 1, 2013.

The bill would establish a retirement formula of 2.4% at age 65 and set a minimum retirement age of 55 for a member of STRS who is hired on or after January 1, 2013. The bill would state the intent of the Legislature that STRS propose statutory changes to fully effectuate those changes by June 30, 2013.

(5) Existing law permits members of PERS, STRS, and county, city, and district retirement systems that have adopted specified provisions, to purchase up to 5 years of nonqualified service credit by making specified contributions to the system.

This bill, on and after January 1, 2013, would prohibit a public retirement system from allowing the purchase of nonqualified service credit, as described above, except as specified.

Under existing law, retirement benefits may be increased retroactively or prospectively.

This bill would provide that any enhancement to a public retirement system's retirement formula or benefit that is adopted on or after January 1, 2013, would apply only to service performed on or after the operative date of the enhancement. The bill would also provide that, if a change to a member's classification or employment results in an increase in the retirement formula or benefit applicable to that member, the increase would apply only to service performed on or after the operative date of the change. The bill would also, until January 1, 2018, specify the benefit amount for industrial disability retirement.

(6) Existing law requires the final compensation of a local member for the purpose of determining any pension or benefit resulting from state service as an elective or appointed officer on a city council or a county board of supervisors accrued while in membership, to be based on the highest average annual compensation earnable by the member during the period of state service in each elective or appointed office.

This bill, for the purpose of determining any pension or benefit resulting from the local service, would require final compensation to be based on the highest average annual pensionable compensation earned.

(7) Existing law provides that any elected public officer who takes public office, or is reelected to public office, on or after January 1, 2006, who is convicted of any specified felony arising directly out of his or her official duties, forfeits all rights and benefits accrued on and after January 1, 2006, under, and membership in, any public retirement system in which he or she is a member, effective on the date of final conviction, as specified.

This bill would instead require that a public employee, including one who is elected or appointed to a public office, who is convicted of any state or federal felony for conduct arising out of, or in the performance of, his or her official duties in pursuit of the office or appointment, or in connection with obtaining salary, disability retirement, service retirement, or other benefits, forfeit retirement benefits earned or accrued from the earliest date of the commission of the felony to the forfeiture date, as specified. The bill would also require any contributions to the public retirement system made by the public employee on or after the earliest date of commission of the felony to be returned, without interest, to the public employee upon the occurrence of a distribution event, as defined, unless otherwise ordered by a court or determined by the pension administrator. The bill would also make related, conforming changes.

(8) PERL establishes the circumstances in which a retired person may serve without reinstatement from retirement or loss or interruption of benefits, including as a member of a board, commission, or advisory committee, upon appointment by certain state officials, by the director of a state department, or by the governing board of a contracting agency. Existing law generally prohibits any person who has been retired from being employed in any capacity with the same public employer unless he or she is first reinstated from retirement, except as authorized.

This bill would authorize a retired person, who is first appointed on or after January 1, 2013, to a part-time or nonsalaried position on a state board or commission, to serve without reinstatement, as specified. The bill would prohibit a retired person who retires from a public employer from serving, being employed by, or being employed through a contract directly by a public employer in the same retirement system from which the retiree receives a pension benefit without reinstatement, except as specified.

(9) The Teachers' Retirement Law limits the amount of compensation for certain creditable service activities by a retired member to be \$22,000 adjusted by the percentage change in the average compensation earnable by active members of the Defined Benefit Program, from the 1998–99 fiscal year to the fiscal year ending in the previous calendar year.

The bill would change that limit in the Teachers' Retirement Law to be  $\frac{1}{2}$  of the median final compensation of all members who retired for service during the fiscal year ending in the previous calendar year and would define those activities as retired member activities.

(10) The Legislators' Retirement Law (LRL) provides pension benefits based in part upon credited service. The LRL also authorizes the Insurance Commissioner and every legislative statutory officer and every elective officer of the state whose office is provided for by the California Constitution, except judges, to become a member of the Legislators' Retirement System (LRS). PERL authorizes legislative statutory officers and elective officers, as defined, to elect to become members of PERS.

This bill would prohibit anyone who first becomes, on or after January 1, 2013, the Insurance Commissioner, a legislative statutory officer, or an elective officer of the state whose office is provided for by the California Constitution from becoming a member of the LRS but would continue to provide optional membership in PERS.

(11) Existing law authorizes any public agency to participate in, and make its employees members of, PERS by contract. In the case of an employee who has been employed by one or more contracting public agencies, retirement benefits distributed to that employee are based on the highest final compensation under any system, and each system makes a separate retirement payment to the employee based upon the number of years that the employee worked for each of those agencies.

The bill would require the Board of Administration of PERS to implement program changes to ensure that a contracting agency that creates a significant increase in actuarial liability bears the associated liability. The bill would require the system actuary to assess an increase in liability in this regard to the employer that created it at the time the increase is determined and to make adjustments to that employer's rates to account for the increased liability. The bill would apply these requirements to any significant increase in actuarial liability due to increased compensation paid to a nonrepresented employee regardless of when the increase in compensation occurred.

(12) The County Employees Retirement Law of 1937 (CERL) authorizes counties and districts, as defined, to provide a system of retirement benefits to their employees. CERL defines compensation earnable for the purpose

of calculating benefits as the average compensation for the period under consideration with respect to the average number of days ordinarily worked by persons in the same grade or class of positions during the period, and at the same rate of pay, as determined by the retirement board.

This bill would prohibit a variety of payments, including unscheduled overtime, payments for unused vacation, sick leave, or compensatory time off, exceeding what may be earned and payable in each 12-month period during the final average salary period, and specified payments made at the termination of employment from being included in compensation earnable. The bill would require the board to establish a procedure for assessing and determining whether an element of compensation was paid to enhance a member's retirement benefit and would prohibit that compensation from being included in compensation earnable.

The bill would require the board to provide notice to the member and employer upon a final determination that compensation was paid to enhance a member's retirement benefit. The bill would authorize the member or employer to obtain judicial review of the board's action by filing a petition for writ of mandate, as specified.

The bill would authorize the board to assess a county or district a reasonable amount to cover the cost of audit, adjustment, or correction, if it determines that a county or district knowingly failed to comply with specified reporting requirements.

Appropriation: yes.

SEC. 6. Section 24214 of the Education Code, as amended by Section 3 of Chapter 135 of the Statutes of 2012, is amended to read:

24214. (a) A member retired for service under this part may perform retired member activities, but the member shall not make contributions to the retirement fund or accrue service credit based on compensation earned from that service. The employer shall maintain accurate records of the earnings of the retired member and report those earnings monthly to the system and retired member as described in Section 22461.

(b) If a member is retired for service under this part, the rate of pay for retired member activities, performed by that member shall not be less than the minimum, nor exceed the maximum, paid by the employer to other employees performing comparable duties.

(c) A member retired for service under this part shall not be required to reinstate for performing retired member activities.

(d) A member retired for service under this part may earn compensation for performing retired member activities in any one school year up to the limitation specified in subdivision (f) without a reduction in his or her retirement allowance.

(e) The postretirement compensation limitation provisions set forth in this section are not applicable to compensation earned for the performance of retired member activities for which the employer is not eligible to receive state apportionment or to compensation that is not creditable pursuant to Section 22119.2.

(f) The limitation that shall apply to the compensation for performance of retired member activities shall, in any one school year, be an amount calculated by the board each July 1 equal to one-half of the median final compensation of all members who retired for service during the fiscal year ending in the previous calendar year.

(g) If a member retired for service under this part earns compensation for performing retired member activities, in excess of the limitation specified in subdivision (f), and if that compensation is not exempt from that limitation under subdivision (h) or any other law, the member's retirement allowance shall be reduced by the amount of the excess compensation. The amount of the reduction may be equal to the monthly allowance payable but shall not exceed the amount of the annual allowance payable under this part for the

fiscal year in which the excess compensation was earned after any reduction made in accordance with subdivision (b) of Section 24214.5.

(h) The limitation specified in this section is not applicable to compensation paid to a member retired for service under this part who has returned to work after the date of retirement as a trustee, fiscal adviser, fiscal expert, receiver, or special trustee appointed by the Superintendent of Public Instruction, the State Board of Education, the Board of Governors of the California Community Colleges, or a county superintendent of schools to address academic or financial weaknesses in a school district pursuant to any of the following provisions:

(1) Section 41320.1.

(2) Article 2 (commencing with Section 42122) of Chapter 6 of Part 24 of Division 3 of Title 2.

(3) Article 3.1 (commencing with Section 52055.57) of Chapter 6.1 of Part 28 of Division 4 of Title 2.

(4) Section 84040.

(i) The Superintendent of Public Instruction, the Executive Director of the State Board of Education, the Chancellor of the California Community Colleges, or the county superintendent of schools exercising the exemption pursuant to subdivision (h) shall submit all documentation required by the system to substantiate the eligibility of the retired member for the exemption, including compliance with subdivisions (j) and (k). The documentation shall be received by the system prior to the retired member's performance of retired member activities.

(j) Subdivision (h) shall not apply to a member who has not attained normal retirement age at the time the compensation is earned by the member, received additional service credit pursuant to Section 22714 or 22715, or received from any public employer any financial inducement to retire in the previous six months. For purposes of this section and Section 24214.5, "financial inducement to retire" includes, but is not limited to, any form of compensation or other payment that is paid directly or indirectly by a public employer to the member, even if not in cash, either before or after retirement, if the member retires for service on or before a specific date or specific range of dates established by the public employer on or before the date the inducement is offered. The system shall liberally interpret this subdivision to further the Legislature's intent to make subdivision (h) inapplicable to members if the member received a financial incentive from any public employer to retire or otherwise terminate employment with the public employer.

(k) The documentation required for subdivision (i) shall include certification of the following:

(1) The position was first advertised for appointment to current active or inactive members of the program with the necessary qualifications to perform the requirements of the position and no qualified current active or inactive member was available to be appointed.

(2) The appointing authority made a good faith effort to hire a retired member who reinstated to active membership for the position at the same salary that was offered as first advertised pursuant to paragraph (1).

(3) The appointing authority, having tried and failed to hire a current active or inactive member or a reinstated retired member, hired a retired member and the salary offered to the retired member subject to this paragraph does not exceed the salary that was offered as first advertised pursuant to paragraph (1).

(4) The salary paid shall be no greater than the salary offered to current active members for the appointed position.

(l) The amendments to this section enacted during the 1995–96 Regular Session shall be deemed to have become operative on July 1, 1996.

(m) This section shall apply to compensation paid during the 2012–13 and 2013–14 fiscal years.

(n) This section shall become inoperative on July 1, 2014, and, as of January 1, 2015, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2015, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 7. Section 24214 of the Education Code, as amended by Section 4 of Chapter 135 of the Statutes of 2012, is amended to read:

24214. (a) A member retired for service under this part may perform the activities identified in subdivision (a) or (b) of Section 22119.5, or subdivision (a) or (b) of Section 26113, as an employee of an employer, as an employee of a third party, or as an independent contractor within the California public school system, but the member shall not make contributions to the retirement fund or accrue service credit based on compensation earned from that service. The employer shall maintain accurate records of the earnings of the retired member and report those earnings monthly to the system and retired member as described in Section 22461.

(b) If a member is retired for service under this part, the rate of pay for service performed by that member as an employee of the employer, as an employee of a third party, or as an independent contractor within the California public school system shall not be less than the minimum, nor exceed that paid by the employer to other employees performing comparable duties.

(c) A member retired for service under this part shall not be required to reinstate for performing the activities identified in subdivision (a) or (b) of Section 22119.5 as an employee of an employer, as an employee of a third party, or as an independent contractor within the California public school system.

(d) A member retired for service under this part may earn compensation for performing activities identified in subdivision (a) or (b) of Section 22119.5 in any one school year up to the limitation specified in subdivision (f) as an employee of an employer, as an employee of a third party, or as an independent contractor, within the California public school system, without a reduction in his or her retirement allowance.

(e) The postretirement compensation limitation provisions set forth in this section are not applicable to compensation earned for the performance of the activities described in subdivision (a) for which the employer is not eligible to receive state apportionment or to compensation that is not creditable pursuant to Section 22119.2.

(f) The limitation that shall apply to the compensation for performance of the activities identified in subdivision (a) or (b) of Section 22119.5 by a member retired for service under this part either as an employee of an employer, an employee of a third party, or as an independent contractor shall, in any one school year, be an amount calculated by the board each July 1 equal to one-half of the median final compensation of all members who retired for service during the fiscal year ending in the previous calendar year.

(g) If a member retired for service under this part earns compensation for performing activities identified in subdivision (a) or (b) of Section 22119.5 in excess of the limitation specified in subdivision (f), as an employee of an employer, as an employee of a third party, or as an independent contractor, within the California public school system, the member's retirement allowance shall be reduced by the amount of the excess compensation. The amount of the reduction may be equal to the monthly allowance payable but may not exceed the amount of the annual allowance payable under this part for the fiscal year in which the excess compensation was earned after any reduction made in accordance with subdivision (b) of Section 24214.5.

(h) An employee of a third party shall not be subject to this section if he or she meets all of the following conditions:

- (1) He or she performs a limited-term assignment.
- (2) The third-party employer does not participate in a California public pension system.
- (3) The activities performed by the individual are not normally performed by employees of the employer, as defined in Section 22131.

(i) The language of this section derived from the amendments to the section of this number added by Chapter 394 of the Statutes of 1995, enacted during the 1995–96 Regular Session, is deemed to have become operative on July 1, 1996.

(j) This section shall become operative on July 1, 2014.

SEC. 8. Section 24214.5 of the Education Code is amended to read:

24214.5. (a) Notwithstanding subdivision (f) of Section 24214, the postretirement compensation limitation shall be zero dollars (\$0) in either of the following circumstances:

(1) During the first 180 days after the most recent retirement of a member retired for service under this part.

(2) During the first six consecutive months after the most recent retirement if the member received additional service credit pursuant to Section 22714 or 22715 or received from any public employer any financial inducement to retire, as defined by subdivision (j) of Section 24214.

(b) If the member has attained normal retirement age at the time the compensation is earned, subdivision (a) shall not apply and Section 24214 shall apply if the appointment has been approved by the governing body of the employer in a public meeting, as reflected in a resolution adopted by the governing body of the employer prior to the performance of retired member activities, expressing its intent to seek an exemption from the limitation specified in subdivision (a). Approval of the appointment may not be placed on a consent calendar. Notwithstanding any other provision of Article 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code or any state or federal law incorporated by subdivision (k) of Section 6254 of the Government Code, the resolution shall be subject to disclosure by the entity adopting the resolution and the system. The resolution shall include the following specific information and findings:

(1) The nature of the employment.

(2) A finding that the appointment is necessary to fill a critically needed position before 180 days have passed.

(3) A finding that the member is not ineligible for application of this subdivision pursuant to subdivision (d).

(4) A finding that the termination of employment of the retired member with the employer is not the basis for the need to acquire the services of the member.

(c) Subdivision (b) shall not apply to a retired member whose termination of employment with the employer is the basis for the need to acquire the services of the member.

(d) Subdivision (b) shall not apply if the member received additional service credit pursuant to Section 22714 or 22715 or received from any public employer any financial inducement to retire.

(e) The Superintendent, the county superintendent of schools, or the chief executive officer of a community college shall submit all documentation required by the system to substantiate the eligibility of the retired member for application of subdivision (b), including, but not limited to, the resolution adopted pursuant to that subdivision.

(f) If a member will be receiving compensation for performance of retired member activities before 180 days after the most recent retirement, the Superintendent, the county superintendent of schools, or the chief executive officer of a community college shall submit all documentation required by the system that certifies that the member did not receive from any public employer any financial inducement to retire.

(g) The documentation required by this section shall be received by the system prior to the retired member's performance of retired member activities.

(h) Within 30 calendar days after the receipt of all documentation required by the system pursuant to this section, the system shall inform the entity seeking application of the exemption specified in subdivision (b), or seeking to employ a retired member pursuant to subdivision (f), and the retired member whether the compensation paid to the member will be subject to the limitation specified in subdivision (a).

(i) If a member retired for service under this part earns compensation for performing retired member activities in excess of the limitation specified in subdivision (a), the member's retirement allowance shall be reduced by the amount of the excess compensation. The amount of the reduction may be equal to the monthly allowance payable but may not exceed the amount of the allowance payable during the first 180 days, in accordance with subdivision (a), after a member retired for service under this part.

Article 4. California Public Employees’ Pension Reform Act of 2013

7522. This article shall be known as the California Public Employees’ Pension Reform Act of 2013.

7522.02. (a) (1) Notwithstanding any other law, except as provided in this article, on and after January 1, 2013, this article shall apply to all state and local public retirement systems and to their participating employers, including the Public Employees’ Retirement System, the State Teachers’ Retirement System, the Legislators’ Retirement System, the Judges’ Retirement System I, the Judges’ Retirement System II, county and district retirement systems created pursuant to the County Employees Retirement Law of 1937, independent public retirement systems, and to individual retirement plans offered by public employers. However, this article shall be subject to the Internal Revenue Code and Section 17 of Article XVI of the California Constitution. The administration of the requirements of this article shall comply with applicable provisions of the Internal Revenue Code and the Revenue and Taxation Code.

(2) Notwithstanding paragraph (1), this article shall not apply to the entities described in Section 9 of Article IX of, and Sections 4 and 5 of Article XI of, the California Constitution, except to the extent that these entities continue to be participating employers in any retirement system governed by state statute. Accordingly, any retirement plan approved before January 1, 2013, by the voters of any entity excluded from coverage by this section shall not be affected by this article.

(b) The benefit plan required by this article shall apply to public employees who are new members as defined in Section 7522.04.

(c) Individuals who were employed by any public employer before January 1, 2013, and who became employed by a subsequent public employer for the first time on or after January 1, 2013, shall be subject to the retirement plan that would have been available to employees of the subsequent employer who were first employed by the subsequent employer on or before December 31, 2012, if the individual was subject to reciprocity established under any of the following provisions:

(1) Article 5 (commencing with Section 20350) of Chapter 3 of Part 3 of Division 5 of Title 2.

(2) Chapter 3 (commencing with Section 31450) of Part 3 of Division 4 of Title 3.

(3) Any agreement between public retirement systems to provide reciprocity to members of the systems.

(d) If a public employer, before January 1, 2013, offers a defined benefit pension plan that provides a defined benefit formula with a lower benefit factor at normal retirement age and results in a lower normal cost than the defined benefit formula required by this article, that employer may continue to offer that defined benefit formula instead of the defined benefit formula required by this article, and shall not be subject to the requirements of Section 7522.10 for pensionable compensation subject to that formula. However, if the employer adopts a new defined benefit formula on or after January 1, 2013, that formula must conform to the requirements of this article or must be determined and certified by the retirement system's chief actuary and the retirement board to have no greater risk and no greater cost to the employer than the defined benefit formula required by this article and must be approved by the Legislature. New members of the defined benefit plan may only participate in the lower cost defined benefit formula that was in place before January 1, 2013, or a defined benefit formula that conforms to the requirements of this article or is approved by the Legislature as provided in this subdivision.

(e) If a public employer, before January 1, 2013, offers a retirement benefit plan that consists solely of a defined contribution plan, that employer may continue to offer that plan instead of the defined benefit pension plan required by this article. However, if the employer adopts a new defined benefit pension plan or defined benefit formula on or after January 1, 2013, that plan or formula must conform to the requirements of this article or must be determined and certified by the retirement system's chief actuary and the system's board to have no greater risk and no greater cost to the employer than the defined benefit formula required by this article and must be approved by the Legislature. New members of the employer's plan may only participate in the defined contribution plan that was in place before January 1, 2013, or a defined contribution plan or defined benefit formula that conforms to the requirements of this article.

(f) The Judges' Retirement System I and the Judges' Retirement System II shall not be required to adopt the defined benefit formula required by

Section 7522.25 or 7522.30 or the compensation limitations defined in Section 7522.10.

(g) This article shall not be construed to provide membership in any public retirement system for an individual who would not otherwise be eligible for membership under that system's applicable rules or laws.

7522.04. For the purposes of this article:

(a) "Defined benefit formula" means a formula used by the retirement system to determine a retirement benefit based on age, years of service, and pensionable compensation earned by an employee up to the limit defined in Section 7522.10.

(b) "Employee contributions" means the contributions to a public retirement system required to be paid by a member of the system, as fixed by law, regulation, administrative action, contract, contract amendment, or other written agreement recognized by the retirement system as establishing an employee contribution.

(2) An employee, including one who is elected or appointed, of a public employer who is employed for the first time by any public employer on or after January 1, 2013, and who was not employed by another public employer prior to that date, but who was not subject to reciprocity under subdivision (c) of Section 7522.02.

(f) "New member" means any of the following:

(1) An individual who becomes a member of any public retirement system for the first time on or after January 1, 2013, and who was not a member of any other public retirement system prior to that date.

(2) An individual who becomes a member of a public retirement system for the first time on or after January 1, 2013, and who was a member of another public retirement system prior to that date, but who was not subject to reciprocity under subdivision (c) of Section 7522.02.

(3) An individual who was an active member in a retirement system and who, after a break in service of more than six months, returned to active membership in that system with a new employer. For purposes of this subdivision, a change in employment between state entities or from one school employer to another shall not be considered as service with a new employer.

(g) "Normal cost" means the portion of the present value of projected benefits under the defined benefit that is attributable to the current year of

service, as determined by the public retirement system’s actuary according to the most recently completed valuation.

(h) “Public employee” means an officer, including one who is elected or appointed, or an employee of a public employer.

(i) “Public employer” means:

(3) Any charter school that elects or is required to participate in a public retirement system.

(j) “Public retirement system” means any pension or retirement system of a public employer, including, but not limited to, an independent retirement plan offered by a public employer that the public employer participates in or offers to its employees for the purpose of providing retirement benefits, or a system of benefits for public employees that is governed by Section 401(a) of Title 26 of the United States Code.

7522.10. (a) On and after January 1, 2013, each public retirement system shall modify its plan or plans to comply with the requirements of this section for each public employer that participates in the system.

(b) Whenever pensionable compensation, as defined in Section 7522.34, is used in the calculation of a benefit, the pensionable compensation shall be subject to the limitations set forth in subdivision (c).

(c) The pensionable compensation used to calculate the defined benefit paid to a new member who retires from the system shall not exceed the following applicable percentage of the contribution and benefit base specified in Section 430(b) of Title 42 of the United States Code on January 1, 2013:

(1) One hundred percent for a member whose service is included in the federal system.

(2) One hundred twenty percent for a member whose service is not included in the federal system.

(d) (1) The retirement system shall adjust the pensionable compensation described in subdivision (c) following each actuarial valuation based on changes to the Consumer Price Index for All Urban Consumers. The adjustment shall be effective annually on January 1 following the annual valuation.

(2) The Legislature reserves the right to modify the requirements of this subdivision with regard to all public employees subject to this section, except that the Legislature may not modify these provisions in a manner that would result in a decrease in benefits accrued prior to the effective date of the modification.

(e) A public employer shall not offer a defined benefit or any combination of defined benefits, including a defined benefit offered by a private provider, on compensation in excess of the limitation in subdivision (c).

(f) (1) A public employer may provide a contribution to a defined contribution plan for compensation in excess of the limitation in subdivision (c) provided the plan and the contribution meet the requirements and limits of federal law.

(2) A public employee who receives an employer contribution to a defined contribution plan shall not have a vested right to continue receiving the employer contribution.

(g) Any employer contributions to any employee defined contribution plan above the pensionable compensation limits in subdivision (c) shall not, when combined with the employer's contribution to the employee's retirement benefits below the compensation limit, exceed the employer's contribution level, as a percentage of pay, required to fund the retirement benefits of employees with income below the compensation limits.

7522.15. Except as provided in subdivisions (d) and (e) of Section 7522.02, each public employer and each public retirement system that offers a defined benefit plan shall offer only the defined benefit formulas established pursuant to Sections 7522.20 and 7522.25 to new members.

7522.18. (a) A public employer that does not offer a supplemental defined benefit plan before January 1, 2013, shall not offer a supplemental defined benefit plan for any employee on or after January 1, 2013.

(b) A public employer that provides a supplemental defined benefit plan, including a defined benefit plan offered by a private provider, before January 1, 2013, shall not offer a supplemental defined benefit plan to any additional employee group to which the plan was not provided before January 1, 2013.

(c) Except as provided in Chapter 38 (commencing with Section 25000) of Article 1 of Part 13 of Title 1 of the Education Code, a public employer shall not offer or provide a supplemental defined benefit plan, including a defined benefit plan offered by a private provider, to any employee hired on or after January 1, 2013.

7522.20. (a) Each retirement system that offers a defined benefit plan for nonsafety members of the system shall use the formula prescribed by this section. The defined benefit plan shall provide a pension at retirement for service equal to the percentage of the member's final compensation set forth opposite the member's age at retirement, taken to the preceding quarter year, in the following table, multiplied by the number of years of service in the system as a nonsafety member. A member may retire for service under this section after five years of service and upon reaching 52 years of age.

(e) On and after January 1, 2013, an employer shall offer one or more of the safety formulas prescribed by this section to new employees who are safety employees eligible for membership in the system. The formula offered shall be the formula that is closest to, and provides a lower benefit at 55 years of age than, the formula provided to members in the same retirement classification offered by the employer on December 31, 2012.

(f) On and after January 1, 2013, an employer and its employees subject to Safety Option Plan One or Safety Option Plan Two may agree in a memorandum of understanding to be subject to Safety Option Plan One or the Basic Safety Plan, subject to the following:

(1) The lower plan shall apply to members first employed on or after the effective date of the lower plan, and shall be agreed to in a memorandum of understanding that has been collectively bargained in accordance with applicable laws.

(2) A retirement plan contract amendment with a public retirement system to alter a retirement formula pursuant to this subdivision shall not be implemented by the employer in the absence of a memorandum of understanding that has been collectively bargained in accordance with applicable laws.

(3) An employer shall not use impasse procedures to impose the lower plan.

(4) An employer shall not provide a different defined benefit for nonrepresented, managerial, or supervisory employees than the employer provides for other public employees, including represented employees, of the same employer who are in the same membership classifications.

(g) Pensionable compensation used to calculate the defined benefit shall be limited as described in Section 7522.10.

7522.30. (a) This section shall apply to all public employers and to all new members. Equal sharing of normal costs between public employers and public employees shall be the standard. The standard shall be that employees pay at least 50 percent of normal costs and that employers not pay any of the required employee contribution.

(b) The “normal cost rate” shall mean the annual actuarially determined normal cost for the defined benefit plan of an employer expressed as a percentage of payroll.

(c) New employees employed on and after January 1, 2013, by those public employers defined in paragraphs (2) and (3) of subdivision (i) of Section 7522.04, the California State University, and the judicial branch who participate in a defined benefit plan shall have an initial contribution rate of at least 50 percent of the normal cost rate for that defined benefit plan, rounded to the nearest quarter of 1 percent, or the current contribution rate of similarly situated employees, whichever is greater. This contribution shall not be paid by the employer on the employee’s behalf.

(d) Notwithstanding subdivision (c), once established, the employee contribution rate described in subdivision (c) shall not be adjusted on account of a change to the normal cost rate unless the normal cost rate increases or decreases by more than 1 percent of payroll above or below the normal cost rate in effect at the time the employee contribution rate is first established or, if later, the normal cost rate in effect at the time of the last adjustment to the employee contribution rate under this section.

(e) Notwithstanding subdivision (c), employee contributions may be more than one-half of the normal cost rate if the increase has been agreed to through the collective bargaining process, subject to the following conditions:

(1) The employer shall not contribute at a greater rate to the plan for nonrepresented, managerial, or supervisory employees than the employer contributes for other public employees, including represented employees,

of the same employer who are in related retirement membership classifications.

(2) The employer shall not increase an employee contribution rate in the absence of a memorandum of understanding that has been collectively bargained in accordance with applicable laws.

(3) The employer shall not use impasse procedures to increase an employee contribution rate above the rate required by this section.

(f) If the terms of a contract, including a memorandum of understanding, between a public employer and its public employees, that is in effect on January 1, 2013, would be impaired by any provision of this section, that provision shall not apply to the public employer and public employees subject to that contract until the expiration of that contract. A renewal, amendment, or any other extension of that contract shall be subject to the requirements of this section.

7522.32. For the purposes of determining a retirement benefit to be paid to a new member of a public retirement system, the following shall apply:

(a) Final compensation shall mean the highest average annual pensionable compensation earned by the member during a period of at least 36 consecutive months, or at least three school years if applicable, immediately preceding his or her retirement or last separation from service if earlier, or during any other period of at least 36 consecutive months during the member's applicable service that the member designates on the application for retirement.

(b) On or after January 1, 2013, an employer shall not modify a benefit plan to permit a calculation of final compensation on a basis of less than the average annual compensation earned by the member during a consecutive 36-month period, or three school years if applicable, for members who have been subject to at least a 36-month or three-school-year calculation prior to that date.

7522.34. (a) "Pensionable compensation" of a new member of any public retirement system means the normal monthly rate of pay or base pay of the member paid in cash to similarly situated members of the same group or class of employment for services rendered on a full-time basis during normal working hours, pursuant to publicly available pay schedules.

(b) Compensation that has been deferred shall be deemed pensionable compensation when earned rather than when paid.

(c) "Pensionable compensation" does not include the following:

(1) Any compensation determined by the board to have been paid to increase a member's retirement benefit under that system.

(2) Compensation that had previously been provided in kind to the member by the employer or paid directly by the employer to a third party other than the retirement system for the benefit of the member and which was converted to and received by the member in the form of a cash payment.

(3) Any one-time or ad hoc payments made to a member.

(4) Severance or any other payment that is granted or awarded to a member in connection with or in anticipation of a separation from employment, but is received by the member while employed.

(5) Payments for unused vacation, annual leave, personal leave, sick leave, or compensatory time off, however denominated, whether paid in a lump sum or otherwise, regardless of when reported or paid.

(6) Payments for additional services rendered outside of normal working hours, whether paid in a lump sum or otherwise.

(7) Any employer-provided allowance, reimbursement, or payment, including, but not limited to, one made for housing, vehicle, or uniforms.

(8) Compensation for overtime work, other than as defined in Section 207(k) of Title 29 of the United States Code.

(9) Employer contributions to deferred compensation or defined contribution plans.

(10) Any bonus paid in addition to the compensation described in subdivision (a).

(11) Any other form of compensation a public retirement board determines is inconsistent with the requirements of subdivision (a).

(12) Any other form of compensation a public retirement board determines should not be pensionable compensation.

7522.40. A public employer shall not provide to a public employee who is elected or appointed, a trustee, excluded from collective bargaining, exempt from civil service, or a manager any health benefit vesting schedule that is more advantageous than that provided generally to other public employees, including represented employees, of the same public employer who are in related retirement membership classifications.

7522.42. (a) In addition to any other benefit limitation prescribed by law, for the purposes of determining a public retirement benefit paid to a new member of a public retirement system, the maximum salary, compensation, or payrate taken into account under the plan for any year shall not exceed the amount permitted to be taken into account under Section 401(a)(17) of Title 26 of the United States Code or its successor.

(b) A public employer shall not seek an exception to the prohibition in subdivision (a) on or after January 1, 2013.

(c) For employees first hired on or after January 1, 2013, a public employer shall not make employer contributions to any qualified retirement plan or plans on behalf of an employee based on that portion of the amount of total pensionable compensation that exceeds the amount specified in Section 401(a)(17) of Title 26 of the United States Code, or its successor.

(d) This section shall not apply to salary, compensation, or payrate paid to individuals who, due to their dates of hire, are not subject to the limits specified in subdivision (a).

Where that elective or appointed service is a consideration in the computation of any pension or benefit, the member may have more than one final compensation.

(b) Any final compensation calculation shall otherwise be subject to this article except that if any individual period of elective service is less than 36 months or three years, then the entire period of that individual's elected service shall be used to determine the final compensation for that period of service.

(F) The contribution rate for Patrol members in State Bargaining Unit 5 will increase by 1.5 percentage points on July 1, 2013.

(2) Consistent with paragraph (1), the normal rate of contribution shall be adjusted accordingly for related state employees who are exempted from the definition of “state employee,” or officers and employees of the executive, legislative, or judicial branch of state government who are not members of the civil service.

(b) Calculation of employee contribution rate increases pursuant to this section shall be based upon compensation calculations established pursuant to Sections 20671 to 20694, inclusive.

(c) In addition to the actuarially required contribution, savings realized by the state employer as a result of the employee contribution rate increases required by this section shall be allocated to any unfunded liability, subject to appropriation in the annual Budget Act.

SEC. 24. Section 20791 is added to the Government Code, to read:

20791. (a) The board shall define a significant increase in actuarial liability due to increased compensation paid to a nonrepresented employee and shall implement program changes to ensure that a contracting agency that creates the significant increase in actuarial liability bears the increased

liability, including any portion of that liability that otherwise would be borne by another contracting agency or agencies.

(b) Upon determining the significant increase in actuarial liability, the system actuary shall assess the increase to the employer that created it and adjust that employer’s rates to account for the increased liability.

(c) This section shall not apply to compensation paid to an employee for service performed while covered by a memorandum of understanding or to compensation paid for service performed while a member of a recognized employee organization as that term is defined in Section 3501.

(d) This section shall apply to any significant increase in actuarial liability, due to increased compensation paid to a nonrepresented employee, that is determined after January 1, 2013, regardless of when that increase in compensation occurred.

(b) This section shall not apply to a National Guard member.

SEC. 27. Section 21400 is added to the Government Code, to read:

21400. (a) A safety member who retires on or after January 1, 2013, for industrial disability shall receive a disability retirement benefit equal to the greater of the following:

(1) Fifty percent of his or her final compensation, plus an annuity purchased with his or her accumulated contributions, if any.

(2) A service retirement allowance, if he or she is qualified for service retirement.

(3) An actuarially reduced factor, as determined by the actuary, for each quarter year that his or her service age is less than 50 years, multiplied by the number of years of safety service subject to the applicable formula, if he or she is not qualified for service retirement.

(4) Nothing in this section shall require a member to receive a lower benefit than he or she would have received prior to January 1, 2013, as the law provided prior to that date.

(b) This section shall remain in effect only until January 1, 2018, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2018, deletes or extends that date.

SEC. 28. Section 31461 of the Government Code is amended to read:

31461. (a) "Compensation earnable" by a member means the average compensation as determined by the board, for the period under consideration upon the basis of the average number of days ordinarily worked by persons in the same grade or class of positions during the period, and at the same rate of pay. The computation for any absence shall be based on the compensation of the position held by the member at the beginning of the absence. Compensation, as defined in Section 31460, that has been deferred

shall be deemed “compensation earnable” when earned, rather than when paid.

(b) “Compensation earnable” does not include, in any case, the following:

(1) Any compensation determined by the board to have been paid to enhance a member’s retirement benefit under that system. That compensation may include:

(A) Compensation that had previously been provided in kind to the member by the employer or paid directly by the employer to a third party other than the retirement system for the benefit of the member, and which was converted to and received by the member in the form of a cash payment in the final average salary period.

(B) Any one-time or ad hoc payment made to a member, but not to all similarly situated members in the member’s grade or class.

(C) Any payment that is made solely due to the termination of the member’s employment, but is received by the member while employed, except those payments that do not exceed what is earned in each 12-month period during the final average salary period regardless of when reported or paid.

(2) Payments for unused vacation, annual leave, personal leave, sick leave, or compensatory time off, however denominated, whether paid in a lump sum or otherwise, in an amount that exceeds that which may be earned in each 12-month period during the final average salary period, regardless of when reported or paid.

(3) Payments for additional services rendered outside of normal working hours, whether paid in a lump sum or otherwise.

(4) Payments made at the termination of employment, except those payments that do not exceed what is earned in each 12-month period during the final average salary period, regardless of when reported or paid.

SEC. 29. Section 31542 is added to the Government Code, to read:

31542. (a) The board shall establish a procedure for assessing and determining whether an element of compensation was paid to enhance a member’s retirement benefit. If the board determines that compensation was paid to enhance a member’s benefit, the member or the employer may present evidence that the compensation was not paid for that purpose. Upon receipt of sufficient evidence to the contrary, a board may reverse its determination that compensation was paid to enhance a member’s retirement benefits.

(b) Upon a final determination by the board that compensation was paid to enhance a member’s retirement benefit, the board shall provide notice of that determination to the member and employer. The member or employer may obtain judicial review of the board’s action by filing a petition for writ of mandate within 30 days of the mailing of that notice.

(c) Compensation that a member was entitled to receive pursuant to a collective bargaining agreement that was subsequently deferred or otherwise modified as a result of a negotiated amendment of that agreement shall be considered compensation earnable and shall not be deemed to have been paid to enhance a member’s retirement benefit.

SEC. 30. Section 31542.5 is added to the Government Code, to read:

31542.5. (a) When a county or district reports compensation to the board, it shall identify the pay period in which the compensation was earned regardless of when it was reported or paid. Compensation shall be reported in accordance with Section 31461 and shall not exceed compensation earnable, as defined in Section 31461.

(b) The board may assess a county or district a reasonable amount to cover the cost of audit, adjustment, or correction, if it determines that a county or district knowingly failed to comply with subdivision (a). A county or district shall be found to have knowingly failed to comply with subdivision (a) if the board determines that either of the following applies:

(1) The county or district knew or should have known that the compensation reported was not compensation earnable, as defined in Section 31461.

(2) The county or district failed to identify the pay period in which compensation earnable was earned, as required by this section.

(c) A county or district shall not pass on to an employee any costs assessed pursuant to subdivision (b).

SEC. 31. Section 31543 is added to the Government Code, to read:

31543. The board may audit a county or district to determine the correctness of retirement benefits, reportable compensation, and enrollment in, and reinstatement to, the system. During an audit, the board may require a county or district to provide information, or make available for examination or copying at a specified time and place, books, papers, data, or records, including, but not limited to, personnel and payroll records, as deemed necessary by the board.

SEC. 32. Section 31631 is added to the Government Code, to read:

31631. (a) Notwithstanding any other law, a board of supervisors or the governing body of a district may, by resolution, ordinance, contract, or contract amendment under this chapter, without a change in benefits, require that members pay all or part of the contributions of a member or employer, or both, for any retirement benefits provided under this chapter. All of those payments are hereby designated as employee contributions. For members who are represented in a bargaining unit, the payment requirement shall be approved in a memorandum of understanding executed by the board of supervisors or the governing body of a district and the employee collective bargaining representative. The contributions shall be uniform either (1) with respect to all members of a recognized bargaining unit or (2) within each of the following classifications: local miscellaneous members, local police officers, local firefighters, county peace officers, and all local safety members other than local police officers, local firefighters, and county peace officers and classifications covered pursuant to Sections 7522.20 and 7522.25.

(b) Nothing in this section shall modify a board of supervisors' or the governing body of a district's authority under law as it existed on December 31, 2012, including any restrictions on that authority, to change the amount of member contributions.

SEC. 33. Section 31631.5 is added to the Government Code, to read:

31631.5. (a) (1) Notwithstanding any other provision of this chapter, a board of supervisors or the governing body of a district may require that members pay 50 percent of the normal cost of benefits. However, that contribution shall be no more than 14 percent above the applicable normal rate of contribution of members established pursuant to this article for local general members, no more than 33 percent above the applicable normal rate of contribution of members established pursuant to Article 6.8 (commencing with Section 21639) for local police officers, local firefighters, county peace officers, and no more than 37 percent above the applicable normal rate of contribution of members established pursuant to Article 6.8 (commencing with Section 31639) for all local safety members other than police officers, firefighters, and county peace officers.

(2) Before implementing any change pursuant to this subdivision for any represented employees, the public employer shall complete the good faith bargaining process as required by law, including any impasse procedures requiring mediation and factfinding. This subdivision shall become operative on January 1, 2018. This subdivision shall not apply to any bargaining unit when the members of that unit are paying at least 50 percent of the normal cost of their pension benefit or are subject to an agreement reached pursuant to paragraph (1). Applicable normal rate of contribution of members means the statutorily authorized rate applicable to the member group as the statutes read on December 31, 2012.

(b) Nothing in this section shall modify a board of supervisors' or the governing body of a district's authority under law as it existed on December 31, 2012, including any restrictions on that authority, to change the amount of member contributions.

SEC. 34. The provisions of this act are severable. If any provision of this act or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.
