

AMENDED IN SENATE APRIL 25, 2013

SENATE BILL

No. 440

Introduced by Senator Padilla

February 21, 2013

An act to amend Sections 66746 and 66747 of, *and to add Section 66748.5 to*, the Education Code, relating to public postsecondary education.

LEGISLATIVE COUNSEL'S DIGEST

SB 440, as amended, Padilla. Public postsecondary education: Student Transfer Achievement Reform Act.

(1) Existing law establishes the California Community Colleges and the California State University as 2 of the segments of public postsecondary education in this state. Existing law, the Student Transfer Achievement Reform Act (~~act~~), encourages community colleges to facilitate the acceptance of credits earned at other community colleges toward the associate degree for transfer. The act also requires the California State University to guarantee admission with junior status to a community college student who meets the requirements for the associate degree for transfer. A student admitted to the California State University pursuant to the act is entitled to receive priority over all other community college transfer students, excluding community college students who have entered into a transfer agreement between a community college and the California State University prior to the fall term of the 2012–13 academic year.

~~This bill would express the finding and declaration of the Legislature that intersegmental faculty of the California Community Colleges and the California State University have developed transfer model curricula in many of the most commonly transferred majors between the 2~~

segments. The bill would express the intent of the Legislature to endorse and encourage the use of transfer model curricula as the preferred basis for associate degrees for transfer and the development of community college areas of emphasis that articulate with the 25 most popular majors for transfer students *findings and declarations of the Legislature relating to timely progression from lower division coursework to degree completion.* The bill would require community college districts colleges to create an associate degree for transfer in every major offered by that district college that has an approved transfer model curriculum before the commencement of the ~~2014-15~~ 2014-15 academic year, and to create an associate degree for transfer in specified areas of emphasis before the commencement of the 2016-17 academic year, thereby imposing a state-mandated local program.

The bill would require California State University campuses to accept transfer model curriculum-aligned associate degrees for transfer in each of the California State University degree options, as defined, within a major field, and accept transfer model curriculum-aligned associate degrees for transfer in each of the specified areas of emphasis referenced above. *The bill would require the California State University to develop an admissions redirection process for students admitted pursuant to the Student Transfer Achievement Reform Act who apply for admission to the California State University, but are not accepted into the campuses specifically applied to.*

The bill would require the California Community Colleges and the California State University, in consultation with specified parties, to develop a student-centered communication and marketing strategy in order to increase the visibility of the associate degree for transfer pathway for all students in California. To the extent that this provision would create new duties for community college districts, it would constitute a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

1 ~~SECTION 1. (a) The Legislature finds and declares that~~
2 ~~intersegmental faculty of the California Community Colleges and~~
3 ~~the California State University have developed transfer model~~
4 ~~curricula in many of the most commonly transferred majors to~~
5 ~~facilitate the transfer of students from community colleges to the~~
6 ~~California State University.~~

7 ~~(b) It is the intent of the Legislature to do both of the following:~~

8 ~~(1) Endorse and encourage both of the following:~~

9 ~~(A) The use of transfer model curricula as the preferred basis~~
10 ~~for associate degrees for transfer.~~

11 ~~(B) The development of community college areas of emphasis~~
12 ~~that articulate with the 25 most popular major courses of study for~~
13 ~~students transferring from a community college to a campus of the~~
14 ~~California State University.~~

15 ~~(2) Establish appropriate steps to be taken by campuses of the~~
16 ~~California Community Colleges or the California State University~~
17 ~~that fail to meet, in a timely manner, the requirements of Sections~~
18 ~~66746 and 66747 of the Education Code, as those sections are~~
19 ~~amended in this act.~~

20 ~~SECTION 1. The Legislature finds and declares all of the~~
21 ~~following:~~

22 ~~(a) Since the enactment of the 1960 Master Plan for Higher~~
23 ~~Education, preparing students to transfer to a four-year university~~
24 ~~has been a core function of the California Community Colleges.~~

25 ~~(b) Successful and timely progression from lower division~~
26 ~~coursework to degree completion is a basic principle of California~~
27 ~~higher education and is critical to the future of the state's economy.~~

28 ~~(c) The Public Policy Institute of California projects that~~
29 ~~California's workforce will have one million fewer graduates than~~
30 ~~it needs in 2025, and that increasing transfer rates from community~~
31 ~~colleges to four-year postsecondary educational institutions could~~
32 ~~dramatically reduce the education skills gap.~~

33 ~~(d) Today, one in every four jobs requires an associate degree~~
34 ~~or higher. In the near future, one in every three jobs will require~~
35 ~~an associate degree or higher.~~

36 ~~(e) The size of the California Community Colleges and the~~
37 ~~California State University systems, which have the largest share~~

1 *of postsecondary students in the nation, allow the state to address*
 2 *the serious projected shortage of educated workers.*

3 *(f) To meet workforce demands in a cost-effective way, it is*
 4 *critical that we significantly increase the number of students*
 5 *obtaining an associate degree while preparing for transfer to a*
 6 *four-year college or university.*

7 *(g) Although the community college and state university*
 8 *segments have undertaken tremendous efforts to institute the new*
 9 *transfer pathway, current implementation efforts of Sections 66746*
 10 *and 66747 of the Education Code alone are insufficient to ensure*
 11 *that the associate degree for transfer becomes the preferred*
 12 *transfer pathway for all students across the state.*
