

## Senate Bill No. 674

### CHAPTER 549

An act to amend Section 21159.24 of the Public Resources Code, relating to environmental quality.

[Approved by Governor September 25, 2014. Filed with Secretary of State September 25, 2014.]

#### LEGISLATIVE COUNSEL'S DIGEST

SB 674, Corbett. California Environmental Quality Act: exemption: residential infill projects.

(1) The California Environmental Quality Act, commonly referred to as CEQA, requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment.

CEQA exempts from these requirements residential infill projects meeting specified criteria, including, among other things, that a community-level environmental review was adopted or certified within 5 years of the date that the application for the project is deemed complete and the project promotes higher density infill housing. For the purposes of this exemption, CEQA defines "residential" to include a use consisting of residential units and primarily neighborhood-serving goods, services, or retail uses that do not exceed 15% of the total floor area of the project.

This bill would instead exempt as "residential" a use consisting of residential units and primarily neighborhood-serving goods, services, or retail uses that do not exceed 25% of the total building square footage of the project.

(2) Because this bill would require a lead agency to determine whether a project meets the above criteria to qualify for an exemption from CEQA, the bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

*The people of the State of California do enact as follows:*

SECTION 1. Section 21159.24 of the Public Resources Code is amended to read:

21159.24. (a) Except as provided in subdivision (b), this division does not apply to a project if all of the following criteria are met:

- (1) The project is a residential project on an infill site.
- (2) The project is located within an urbanized area.
- (3) The project satisfies the criteria of Section 21159.21.
- (4) Within five years of the date that the application for the project is deemed complete pursuant to Section 65943 of the Government Code, community-level environmental review was certified or adopted.

(5) The site of the project is not more than four acres in total area.

(6) The project does not contain more than 100 residential units.

(7) Either of the following criteria are met:

(A) (i) At least 10 percent of the housing is sold to families of moderate income, or not less than 10 percent of the housing is rented to families of low income, or not less than 5 percent of the housing is rented to families of very low income.

(ii) The project developer provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of the housing units for very low, low-, and moderate-income households at monthly housing costs determined pursuant to paragraph (3) of subdivision (h) of Section 65589.5 of the Government Code.

(B) The project developer has paid or will pay in-lieu fees pursuant to a local ordinance in an amount sufficient to result in the development of an equivalent number of units that would otherwise be required pursuant to subparagraph (A).

(8) The project is within one-half mile of a major transit stop.

(9) The project does not include any single level building that exceeds 100,000 square feet.

(10) The project promotes higher density infill housing. A project with a density of at least 20 units per acre shall be conclusively presumed to promote higher density infill housing. A project with a density of at least 10 units per acre and a density greater than the average density of the residential properties within 1,500 feet shall be presumed to promote higher density housing unless the preponderance of the evidence demonstrates otherwise.

(b) Notwithstanding subdivision (a), this division shall apply to a development project that meets the criteria described in subdivision (a), if any of the following occur:

(1) There is a reasonable possibility that the project will have a project-specific, significant effect on the environment due to unusual circumstances.

(2) Substantial changes with respect to the circumstances under which the project is being undertaken that are related to the project have occurred since community-level environmental review was certified or adopted.

(3) New information becomes available regarding the circumstances under which the project is being undertaken and that is related to the project, that was not known, and could not have been known, at the time that community-level environmental review was certified or adopted.

(c) If a project satisfies the criteria described in subdivision (a), but is not exempt from this division as a result of satisfying the criteria described in subdivision (b), the analysis of the environmental effects of the project in the environmental impact report or the negative declaration shall be limited to an analysis of the project-specific effect of the projects and any effects identified pursuant to paragraph (2) or (3) of subdivision (b).

(d) For the purposes of this section, “residential” means a use consisting of either of the following:

(1) Residential units only.

(2) Residential units and primarily neighborhood-serving goods, services, or retail uses that do not exceed 25 percent of the total building square footage of the project.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.
