

AMENDED IN ASSEMBLY JANUARY 26, 2015

CALIFORNIA LEGISLATURE—2015–16 REGULAR SESSION

ASSEMBLY BILL

No. 101

Introduced by Assembly Member Alejo

January 8, 2015

~~An act to amend Section 33500 of the Education Code, relating to state educational programs. An act to add Section 51226.7 to the Education Code, relating to pupil instruction.~~

LEGISLATIVE COUNSEL'S DIGEST

AB 101, as amended, Alejo. ~~State educational programs: educational advisory bodies. Pupil instruction: ethnic studies.~~

Existing law requires the adopted course of study for grades 7 to 12, inclusive, to include, among other subjects, the social sciences. Existing law requires the State Board of Education, with the assistance of the Superintendent of Public Instruction, to establish a list of textbooks and other instructional materials that highlight the contributions of minorities in the development of California and the United States.

This bill would require the Superintendent to oversee the development of, and the board to adopt, a model curriculum framework, professional development standards, and other support systems to ensure quality courses in ethnic studies. The bill would require the Superintendent to establish an Ethnic Studies Advisory Committee and would require the committee to advise, assist, and make recommendations to the board about programs, professional development, curriculum content, and other issues related to ethnic studies. The bill would require the Superintendent, on or before June 30, 2016, to submit to the board a plan to fully implement these requirements. The bill would, beginning the school year following the adoption of the model curriculum, require

each school district maintaining any of grades 7 to 12, inclusive, to offer, as an elective course in the social sciences, a course of study in ethnic studies based on the model curriculum framework. Because school districts would be required to offer ethnic studies courses, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

~~Existing law establishes preschool programs and public and private elementary and secondary schools throughout the state. Existing law also establishes the State Board of Education and the State Department of Education to provide guidance and support to local educational agencies and other entities that operate schools and preschool programs, and further authorizes the establishment and operation of numerous educational programs on the state level that are administered by the state board, the department, or other state agencies.~~

~~Existing law expresses the finding and declaration of the Legislature that there is a need to encourage the adoption of new or improved educational ideas, practices, and techniques in solving critical educational problems in preschool, elementary, and secondary schools throughout the state, but that there are a large number of permanent commissions, committees, and councils, some of which have overlapping duties and functions or that have been perpetuated in existence beyond the original need or purpose for which they were created. Existing law expresses the intent of the Legislature to create 3 levels of educational advisory bodies, as specified.~~

~~This bill would make nonsubstantive changes in these provisions.~~

Vote: majority. Appropriation: no. Fiscal committee: ~~no~~-yes.
 State-mandated local program: ~~no~~-yes.

30 ~~SECTION 1. Section 33500 of the Education Code is amended~~
31 ~~to read:~~

32 ~~33500. (a) The Legislature finds and declares both of the~~
33 ~~following:~~

34 ~~(1) There is further need to encourage the adoption of new or~~
35 ~~improved educational ideas, practices, and techniques in solving~~
36 ~~critical educational problems in preschool, elementary, and~~
37 ~~secondary schools throughout the state. In recognition of the need~~
38 ~~for the planning and developing of new programs involving a wide~~
39 ~~range of new approaches designed to improve the quality of~~
40 ~~education available in this state, this chapter is expressly enacted~~

1 to foster innovation and create change in education, based on
2 research and proven need. It is the purpose of this chapter to bring
3 purposeful change and experimentation to schools throughout the
4 state, through the use of all available resources of the state.

5 (2) There are in existence a large number of permanent
6 commissions, committees, and councils, some of which have
7 overlapping duties and functions, and some of which have been
8 perpetuated in existence beyond the original need or purpose for
9 which they were created.

10 (b) Therefore, in order to provide a more economical, efficient,
11 and logical structure to educational policymaking, it is the intent
12 of the Legislature to create three levels of educational advisory
13 bodies: educational policy advisory commissions, educational
14 advisory committees, and educational task forces.
