

ASSEMBLY BILL

No. 531

Introduced by Assembly Member O'Donnell

February 23, 2015

An act to amend Section 42127.01 of the Education Code, relating to school finance.

LEGISLATIVE COUNSEL'S DIGEST

AB 531, as introduced, O'Donnell. School finance: budget calculations.

Existing law, unless the school district is granted an exemption, limits the amount of the combined assigned or unassigned ending fund balance contained in a school district's annual budget in any fiscal year immediately after a fiscal year in which a transfer is made into the Public School System Stabilization Account, and establishes a formula for calculating the maximum amount allowable for school districts with less than 400,000 units of average daily attendance, and a formula for school districts with more than 400,000 units of average daily attendance, as specified.

This bill would instead make the formula for school districts with less than 400,000 units of average daily attendance applicable to school districts with 400,000 units of average daily attendance or less. The bill would also make a technical change by deleting an obsolete provision. To the extent the bill would impose additional duties on school districts, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:
