An act to add Section 68130.6 to the Education Code, relating to public postsecondary education.

LEGISLATIVE COUNSEL’S DIGEST

Existing law establishes the segments of the public postsecondary education system in the state, including the University of California administered by the Regents of the University of California, the California State University administered by the Trustees of the California State University, and the California Community Colleges administered by the Board of Governors of the California Community Colleges.
Existing law provides that a student, other than a nonimmigrant alien, as defined, who has attended high school in California for 3 or more years, who has graduated from a California high school or attained the equivalent thereof, who has registered at or attends an accredited institution of higher education in California not earlier than the fall semester or quarter of the 2001–02 academic year, and who, if he or she is an alien without lawful immigration status, has filed an affidavit,
as specified, is exempt from paying nonresident tuition at the California Community Colleges and the California State University.

This bill would, commencing with the 2017–18 academic year, require the California Community Colleges and the California State University, and would request the University of California, to create Dream Resource Centers on each campus, as specified, to assist certain students by streamlining access to all available financial aid and academic opportunities for those students. The bill would require each campus of the California Community Colleges and the California State University that is not required to have a Dream Resource Center to ensure that it has a designated staff person who is knowledgeable in available financial aid, services, and academic opportunities for all students meeting specified requirements, including undocumented students. By requiring community colleges to create Dream Resource Centers, this bill would impose a state-mandated local program.

This bill would authorize the trustees, the board of governors, and the regents to seek and accept on behalf of the state any gift, bequest, devise, or donation whenever the gift and the terms and conditions thereof will aid in the creation and operation of Dream Resource Centers for their respective systems.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

1 SECTION 1. The Legislature finds and declares all of the following:
2 (a) It is the intent of the Legislature to increase enrollment and graduation rates among students meeting the requirements of Assembly Bill 540 of the 2001–02 Regular Session (Firebaugh, Ch. 814) by requiring the creation of Dream Resource Centers at public institutions of higher education.
(b) It is estimated that each year approximately 65,000 undocumented students graduate from high schools, and while California has been a leader in enacting innovative and bold laws to provide opportunities for undocumented youth to attain higher education, only 20 percent of these students attend college. Many undocumented youth and their families are unaware of recent policy changes, such as the enactment of Assembly Bill 540 of the 2001–02 Regular Session, the California Dream Act of 2011, and the federal Deferred Action for Childhood Arrivals (DACA), that make college graduation more attainable. Currently, the majority of college campuses do not have a centralized location that provides specialized support services and resources for students meeting the requirements of Assembly Bill 540 of the 2001–02 Regular Session.

(c) The creation of Dream Resource Centers would save staff time and resources by streamlining all available financial aid and academic opportunities for students meeting the requirements of Assembly Bill 540 of the 2001–02 Regular Session. These Dream Resource Centers would seek to empower and create a safe and welcoming environment for those students. These centers would increase enrollment, transfer, and graduation rates among this population.

(d) A number of college campuses have acknowledged the needs and challenges of these students and have created Dream Resource Centers. These include: the University of California, Los Angeles; the University of California, Davis; the California State University, Los Angeles; the California State University, Fullerton; and the California State University, Northridge. These centers provide, among other things, informational workshops, legal clinics, information on programs available to undocumented immigrants, and peer mentoring and support services to increase awareness of existing programs and available resources, enhance professional development, and increase employment opportunities.
