AMENDED IN SENATE APRIL 6, 2015

SENATE BILL

No. 614

Introduced by Senator Leno
(Coauthor: Senator Anderson)

February 27, 2015

An act to add Article 1.4 (commencing with Section 14045.10) to Chapter 7 of Part 3 of Division 9 of, the Welfare and Institutions Code, relating to Medi-Cal.

LEGISLATIVE COUNSEL'S DIGEST

SB 614, as amended, Leno. Medi-Cal: mental health services: ~~peer~~ *peer, parent*, and family support specialist certification.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income persons receive health care benefits. The Medi-Cal program is, in part, governed and funded by federal Medicaid provisions. Existing law provides for a schedule of benefits under the Medi-Cal program and provides for various services, including various behavioral and mental health services.

Existing law, the Mental Health Services Act (MHSA), an initiative measure enacted by the voters as Proposition 63 at the November 2, 2004, statewide general election, establishes the continuously appropriated Mental Health Services Fund to fund various county mental health programs. The act also requires funds to be reserved for the costs for the State Department of Health Care Services, the California Mental Health Planning Council, the Office of Statewide Health Planning and Development (OSHPD), the Mental Health Services Oversight and Accountability Commission, the State Department of Public Health,

and any other state agency to implement all duties pursuant to certain programs provided for by the act, subject to appropriation in the annual Budget Act. The act provides that it may be amended by the Legislature by a $\frac{2}{3}$ vote of each house as long as the amendment is consistent with and furthers the intent of the act, and that the Legislature may also clarify procedures and terms of the act by majority vote.

This bill would require the State Department of Health Care Services to establish, by July 1, ~~2016~~, 2017, a statewide ~~peer~~ *peer, parent*, and family support specialist certification program, as a part of the state's comprehensive mental health *and substance use disorder* delivery system and the Medi-Cal program. The bill would include ~~3~~ 4 certification categories: adult peer support specialists, *transition-age youth peer support specialists*, family peer support specialists, and parent peer support specialists. The certification program's components would include, among others, defining responsibilities and practice guidelines, determining curriculum and core competencies, specifying training and continuing education requirements, and establishing a code of ethics and certification revocation processes. *The bill would require an applicant for the certification as a peer, parent, and family support specialist to meet specified requirements, including successful completion of the curriculum and training requirements.*

This bill would require the department to collaborate with OSHPD and interested stakeholders in developing the certification program, and to obtain technical assistance pursuant to a specified joint state-county decisionmaking process. The bill would authorize the department to use funding provided through the MHSA and designated funds administered by OSHPD, to develop and administer the ~~program~~ *program, and would authorize the use of these MHSA funds to serve as the state's share of funding to develop and administer the program for the purpose of claiming federal financial participation under the Medicaid Program.*

This bill would require the department to amend the Medicaid state plan to include a certified ~~peer~~ *peer, parent*, and family support specialist as a provider type for purposes of the Medi-Cal program, but would implement this provision only if and to the extent that federal financial participation is available and the department obtains all necessary federal approvals. The bill would authorize the department to enter into exclusive or nonexclusive contracts on a bid or nonbid basis, as specified, on a statewide or more limited geographic basis. This bill also would authorize the department to implement, interpret, or make

specific its provisions by various informational documents until regulations are adopted.

This bill would declare that it clarifies terms and procedures under the Mental Health Services Act.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.

The people of the State of California do enact as follows:
