SENATE BILL

No. 669

Introduced by Senator Polanco

February 24, 1999

An act to amend Section 53114.1 of the Government Code, ~~and to add Sections 381.5 and 382.7 to;~~ and to add Chapter 1.5 (commencing with Section 270) to Part 1 of Division 1 of, the Public Utilities Code, relating to service.

LEGISLATIVE COUNSEL'S DIGEST

SB 669, as amended, Polanco. Local emergency telephone systems: Public Utilities Commission.

(1) Existing law, the Warren-911-Emergency Assistance Act, directs the Communications Division of the Department of General Services to consult regularly with specified agencies, officials, and entities to accomplish its responsibilities with respect to the establishment by local agencies of 911 telephone service.

This bill would direct the Communications Division also to consult for that purpose with a local representative from a city and a local representative from a county.

(2) Existing law provides for various programs relating to telephone corporations to be administered by the Public

Utilities Commission, and paid for in the utility rates authorized by the commission.

This bill would, under the Public Utilities Act, create 6 advisory boards to advise the commission regarding the implementation, development, and administration of specified programs, and to carry out the programs pursuant to the commission's direction, control, and approval. The bill would require the commission to determine the number and qualifications of the members of each advisory board, as specified, and would prescribe certain matters of organization and procedure for each advisory board. The bill would require each advisory board to submit an annual budget to the commission for approval, and a report describing the activities of the advisory board, as prescribed. The bill would create a fund in the State Treasury for each advisory board, and would require the commission, on or before July 1, 2000, to report to the Governor and the Legislature regarding a transition plan designed to protect the efficiency and effectiveness of programs associated with those funds. The bill would require telephone corporations to submit to the commission approved rate revenues for transfer by the commission to the Controller for deposit in the appropriate fund as created by the bill. The bill would require any unexpended revenues collected prior to the operative date of the bill to be deposited in the appropriate fund, as specified. The bill would require the commission to conduct financial audits of the revenues for each of the funds, and to conduct compliance audits with regard to each program, as specified. Because, under the act, a violation of those provisions would be a crime, the bill would impose a state-mandated local program by creating new crimes.

(3) The act requires the commission to order specified electrical corporations to collect and spend certain funds for prescribed public benefit programs. The act specifically requires cost-effective energy efficiency and conservation activities to be funded by San Diego Gas and Electric Company, Southern California Edison Company, and Pacific Gas and Electric Company at specified levels, commencing January 1, 1998, through December 31, 2001.

~~The bill would require the commission, if it requires low-income energy efficiency programs to be subject to competitive bidding, to consider as part of its bid evaluation criteria both cost of service and quality of service criteria. The bill would authorize the commission to modify its existing policies and procedures, and the entities with which it contracts, with regard to low-income energy efficiency programs, based on public input from a variety of sources, including, but not limited to, representatives from low-income communities. The bill would make related statements of legislative intent.~~

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

The people of the State of California do enact as follows:
