An act to amend Sections 25421 and 25449.4 of the Public Resources Code, ~~and to repeal Section 9502 of the Public Utilities Code~~, relating to public resources, and making an appropriation therefor.

LEGISLATIVE COUNSEL'S DIGEST

SB 1299, as amended, Committee on Energy, Utilities and Communications. Energy resources conservation: ~~low-income weatherization report.~~

(1) Existing law requires the State Energy Resources Conservation and Development Commission to administer the State Energy Conservation Assistance Account, a continuously appropriated account, in the General Fund until January 1, 2001, to provide grants and loans to local governments and public institutions to maximize energy use savings. All loans outstanding as of that date are required to continue to be repaid as specified until paid in full, and all unexpended funds in the account on and after that date, except as specified, are required to revert to the General Fund.

This bill would extend the operation of those provisions to January 1, 2011, and would thereby make an appropriation by extending the time during which the funds in a continuously appropriated account are made available.

(2) Existing law, until January 1, 2002, requires the commission to enter into agreements with the Regents of the University of California, the Trustees of the California State University, the Board of Governors of the California Community Colleges, and the State Department of Education to expend specified funds for certain purposes relating to energy conservation. Existing law creates the Local Jurisdiction Energy Assistance Account in the General Fund for the purposes of these provisions and requires the funds in the account to be disbursed by the Controller as authorized by the commission. All loans outstanding as of January 1, 2002, are required to continue to be repaid as specified until paid in full, and all unexpended funds in the account on and after that date, except as specified, are required to be deposited in the Federal Trust Fund and expended for the purposes for which federal oil overcharge funds are available.

This bill would extend the operation of those provisions to January 1, 2011, and would thereby make an appropriation by extending the time during which the specified funds are available for disbursement.

~~(3) Existing law requires each publicly owned electric and gas utility, on a biennial basis, to submit a prescribed low-income weatherization report to the commission.~~

~~This bill would repeal that provision.~~

Vote: <sup>2</sup>/<sub>3</sub>. Appropriation: yes. Fiscal committee: yes. State-mandated local program: no.
